DRAGGING

down pains are a symptom of the most serious trouble which can attack a woman, viz: falling of the womb. With this, generally, come irregular, painful, scanty or profuse periods, wasteful, weakening drains, dreadful backache, headache, nervousness, dizziness, irritability, tired feeling, inability to walk, loss of appetite, color and beauty. The cure is

WINE OF CARDUI

Woman's Relief

that marvelous, curative extract, or natural essence, of herbs, which exerts such a wonderful strengthening influence on all female organs. Cardui relieves pain, regulates the menses, stops drains and stimulates the muscles to pull the womb up into place.

It is a safe and permanent cure for all female complaints.

CORN SHOW

Will Be Held In Bowling Green Church, Nov. 9—Two Addresses—To Be Given By An Expert.

On November 9, Newark Grange will hold a corn show and institute at Bowling Green church, five miles east of Newark on the Zanesville road.

C. G. Williams of the Ohio Experiment Station, will judge the corn and deliver two addresses, one in the afternoon and one in the evening on the subject.

Any resident of Licking county may make an exhibit of ten ears.

It is said that Prof. Holden of Iowa, has added thousands of dollars to the wealth of Iowa by his corn school, teaching the farmers better methods of selecting and breeding their seed corn.

Licking county is not such an exclusive corn producing country as Iowa, but it is our leading crop, and let us attend this institute and see if we can not learn of better methods and thus add to the wealth of the county.

ALL IS READY

For Licking County's Big Fair, Which Is To Be Held Next Week.

The Licking County Agricultural Society has expended considerable money during the past year in improving the fair grounds in various ways, which will prove that the pleasure and convenience of the fair patrons is one of the things uppermost in the minds of the directors. New additions have been made to the stock sheds, in addition to a handsome new cattle barn which has just been completed. This barn will have a stalling capacity for about 100 head of cattle, and will be one of the most up-to-date structures of the kind to be found at any county fair in Ohio. A new slate roof has been placed in floral hall, the race course is being put in the pink of condition for the racing program, which promises to be the best ever seen on the track.

The grounds are also being put in splendid shape for the big exposition next week, and the management are overlooking nothing that will enhance the interest of the fair or fully repay every visitor for time and expense of attending. The list of exhibits in every department is reported by the secretary to be greater, by far, than ever before in the history of the county's greatest annual event.

HEN LIVED FOR OVER 22 YEARS

SHE LAID 4,750 EGGS AND IT IS ESTIMATED THAT SHE EARNED \$1,079.50 For Her Owner During Her Life Time—Tombstone Appropriately Engraved Has Been Erected.

Chattanooga, Tenn., Sept. 28.—There died on Saturday at Evansville, Tenn., a hen that was known to be 22 years old.

This unprecedentedly long-lived hen belonged to George Bradley.

Betsy was one of a fine brood of chicks hatched on the day that Bradley's eldest son was born, nearly 22 years ago. By the date of the young man's birth the family established her age.

Betsy was occasionally permitted to indulge her motherly instincts, upon which auspicious occasions she invariably brought into the world from a dozen to fifteen of the finest chicks that ever scratched gravel.

When not engaged in motherly duties Betsy sometimes worked overtime and laid two eggs a day.

As year after year passed without any appreciable difference in Betsy's strenuousness she became the wonder of the county and the barnyard jewel of the Bradley family.

For 19 years Betsy kept up her good work.

It is estimated that during that time this industrious hen laid 4,750 eggs and hatched 570 chickens—"mostly girls," as the musical comedy advertisements would say.

At the age of 19 Betsy suddenly changed her habits and seemed seized with a distinct aversion to roosts. The finest cocks of the walk in Farmer Bradley's barnyard had no charms for Betsy. She spurned them all. During the last three years of her life Betsy did not lay an egg or hatch a chick.

Betsy was buried with honors befitting her and over her grave Mr. Bradley will erect a tombstone appropriately inscribed as follows:

o o
: HERE LIES LAYING :
: BETSY :
: Born in 1883; Died in 1905 :
: She did many a fowl deed for :
: those she loved :
: Peace to her bones—let :
: them lay :
: May she lay again some :
: other day :
o o

If the 4,750 eggs that Betsy laid during her 19 years of faithful service were sold in the market at their present price they would realize \$308.50. If her 570 chickens brought an average price of 30 cents they would represent a market value of \$171.

On this basis Betsy earned \$1,079.50 for her owner before she retired from active duty and commenced to take life easy.

J. D. Rocketteller's Gift to a Bride.

Miss Mabel Hemmingsway, daughter of C. V. Hemmingsway of Tarrytown, N. Y., who has been superintendant of Pocantico Hills for a score of years, was married recently to Walter Vanderbilt, says a Tarrytown special dispatch to the New York Herald. The ceremony was performed at the home of the bride's father, on the Rocketteller domain, and one of the pleasing features of the event was the presentation of a check to the bride for a large sum from Mr. Rocketteller. The bride is a special favorite of Mr. Rocketteller and just before he left for Cleveland to spend the summer and fall he bought the Dunmots King villa, at Pocantico Hills, for \$15,000, and it was also learned that in addition to the check he has turned the villa over to the young couple for their future home, free of rent.

WHAT "NYLIC" IS.

Explanation of Its Connection to New York Life Insurance Agencies.

At the morning session of the insurance investigating committee in New York the other day the mysteries of "Nylic" were unraveled by Thomas A. Buckner, vice president, in charge of the agencies of the New York Life Insurance company, says the New York Tribune. Mr. Buckner explained that "Nylic," the name, was taken from the first letters of the words making up the name of the company. "Nylic," he said, was a system of compensating agents used instead of renewal commissions.

There are five classes of "Nylics," ranging from freshman, through first, second and third degree, to senior. Every agent holding a written contract with the company, in which he agrees to give his entire time to the company, becomes a freshman "Nylic" on signing this contract. The freshman term is for five years, in which the agent must write new business amounting to \$25,000 each year. If he fails he has to go over the whole ground again. In the same fashion the agent rises to the rank of senior "Nylic" after twenty years of service if he has written the required amount of new insurance. As senior "Nylic" he receives a seventy-five cent bonus on every \$1,000 worth of insurance, figured on an average between his smallest and largest years within five year terms.

Mr. Buckner said that there were 916 "Nylics," of whom 409 were freshmen, and that there were 5,000 agents who were not "Nylics." He also testified to a superior "Nylic" system for agency directors. Special provisions had been made for the creation of a "Nylic" fund, limited to 1912. The "Nylic" system provides, according to Mr. Buckner, for a retiring fund, a five year payment for disability and a six months' payment to the estate of a deceased "Nylic."

Mr. Hughes' questions indicated that he was interested in "Nylic" as a possible source of excessive expense to policy holders. The total "Nylic" fund for agency directors was shown to be \$307,777.83, and of this fund there were 191 beneficiaries. The "Nylic" expenses of 1904 amounted to \$389,228.64.

Mr. Buckner indicated the various features of the "Nylic" with evident pride and insisted that it had contributed to building up the company's business materially. In summing up "Nylic" he said:

"Our purpose is to bind successful men more closely to the company. This the two 'Nylic' systems have accomplished. They have done more than any one feature to build up our agency system, which I believe to be the best on earth and which has involved \$100,000,000 more than was paid out for any other business of the kind."

PICKLE CARRYING BURGLARS

Befile Children With Them To Keep Quiet While They Rob Papa.

Max Rakoun, a farmer residing in Chesterfield, Conn., had an experience with two masked burglars a few nights ago that cost him \$265, says a special dispatch from New London, Conn., to the New York World. Rakoun, his wife, two sons and little daughter were awakened shortly after midnight by the intruders, who demanded all the ready money about the place, one flourishing a huge pistol of ancient pattern and the other brandishing a stiletto.

The parents and oldest boy were tied by their thumbs and the younger children were coaxed to keep quiet by the gift of a couple of pickles. Rakoun was forced to disclose the whereabouts of \$250, which was concealed under a pillow, and also \$15 in the pocket of a pair of overalls. The robbers, who spoke in Hebrew, then escaped by way of a window through which they had entered.

and growing city like Newark, and
under the new municipal code, has
become a very important one. The
Democratic candidate for that office,
Mr. Frank P. Bolton, is a gentleman
that will fill the bill in every particu-
lar. He is a trained and tried lawyer,
with several years successful expe-
rience at the bar in the general prac-
tice of the law. This experience qual-
ifies him for the position of City So-
licitor. The city of Newark cannot
afford to try the experiment of putting
young legal fledglings in this impor-
tant office to learn the practice by ex-
pensive experience to the city, when
a well qualified man is already a can-
didate for the office.

Hypocritical Pretense.

It is well known that President
Roosevelt has been advocating rail-
road rate regulation by legisla-
tion, granting the interstate commerce
commission to have full powers to
make such regulation. The President
maintains that the practice of rebates
and other evils can be prevented by
no other means. But Senator Foraker's
speech at Bellefontaine was di-
rectly in opposition to Roosevelt's po-
sition on this subject. His opposition
in that speech has caused so much
comment throughout the country that
Foraker has been compelled to make
an explanation, in which he under-
takes to disclaim hostility to the
President's object but admits dis-
agreement as to methods of attain-
ment. The President's explanation
of the same end. But Foraker's ex-
planation does not explain. He only
makes plain what is a well known
fact that the United States Senate
never intends to allow Roosevelt's
proposed measure to be enacted into
law. No railroad rate regulation will
be permitted to pass the Senate. Both
Foraker and Dick can be counted on to
help smother or emasculate any bill
on this subject that the President
may want passed. And yet Dick, as
chairman of the Cox state committee
makes the hypocritical pretense that
sustaining President Roosevelt is a
vital issue in this campaign.

Grafting Looks in Plain Figures.

In his speech at Bellefontaine Sat-
urday Governor Herrick declared:
"My administration has been econom-
ical and free from scandal." And yet
it is the scandal of his administration
growing out of its abject surrender to
George B. Cox of Cincinnati on all oc-
casions that has driven thousands of
old-line Republicans away from the
party in this campaign and to the de-
termination to exercise their utmost
endeavor to compass its defeat. That
is one of the scandals that could not
be whitewashed as others have been.The six European powers have in-
formed the government of Turkey of
their intention to assume international
control of the finances of Macedonia
on October 1. This action has been
bitterly opposed by the sultan, who
has exhausted every effort to induce
the powers from taking it. He has,
however, entirely and finally failed,
and he must either acquiesce or re-
sist to arms. This latter he is in no
position to do. The control of the
finances of Macedonia by the powers
ought to make a great improvement
in the condition of the province, for
the rapacity of the Turkish officials,
the fruitful source of trouble, will
thereby be checked and finally ended.
The change promises much for the
long-suffering Macedonians, whose day
of final salvation will be greatly for-
warded by it.

HERRICK AS A CANDIDATE
AND COX AS AN ISSUE

"Herrick Renounces Cox"—so runs the headline. Gov-
ernor Myron T. Herrick of Ohio denies that in an interview he
said he was proud to be associated as a Republican with Geo.
B. Cox, boss of Cincinnati. Mr. Herrick also complains that
there is an effort to make Cox an issue in the state campaign,
whereas the real issue is the character and past record of
Herrick himself. This is ingenious, but not convincing. Con-
ceivably Mr. Herrick is not proud to be associated with Cox,
whose character and public record are enough to turn
stronger stomachs than that of the governor of Ohio; but
renunciation of Cox requires something more than a mere de-
nial. Cox is a great wheel in the Republican machine. He
is, in a sense, one of Herrick's creators. Like him or not,
Herrick owes him certain obligations which can not be re-
pudiated. The issues can not be restricted to the individual
Herrick; the voters are to pass upon the records of the lead-
ers of that party which asks for a further lease of power, and
foremost among these is Cox. What is true in Ohio is true
elsewhere. The man who owes his office and authority to a
boss is in the very nature of the case bound to that boss.
Strive as he may, he can not sever the tie. In sickness and
in health, for better or for worse, the union is indissoluble.—

HOW GRAFTING LOOKS
IN PLAIN FIGURES.

In 1890 the Sixty-ninth general assembly, which was a
Democratic body, contained 145 members. To look after the
sweeping, dusting, cleanliness, lighting, general care of the
two halls, and to perform the necessary clerical work, 47 em-
ployees were engaged. They were liberally paid, and received
\$21,576.55 for the regular session and an extra session.

In 1904 the Seventy-sixth general assembly, a Republican
body and the sixth in succession, contained 143 members.
The work to be performed was the same as in 1890. Yet there
were 124 clerks and employees given positions. This was al-
most three times as many as was required. They were paid
\$44,379.20 for a single session.

Of this sum over \$23,000 was graft pure and simple, taken
out of the state treasury and bestowed on George B. Cox's
henchmen.

These facts and figures are in the state auditor's and the
legislative reports for 1890 and 1904.

The Murray Comedy company will

"THE CLAY BAKER."

Among the present season's most

noted theatrical successes that is

meeting with merited approval, is

William V. Mong's splendidly pre-

sented, four-act play, "The Clay Baker."

This is to be Manager Bower's attrac-

tion at the Auditorium Thursday,

Sept. 28. The engagement is looked

forward to with more than ordinary

interest as it promises the event

of artistic excellence of the season.

"The Clay Baker" is a novelty, in

stage creation, being an entertain-

ment of the higher order, a beautiful

story cleverly acted and scenically

perfect in every detail.

In the quaint character of old Peter

Denig, the clay baker, Mr. Mong in-

troduces a character delightfully in-

teresting but new to the stage. The

supporting company is all that could

be wished for and "The Clay Baker"

will be one of the season's best pro-

ductions. Auditorium one night, Sep-

AT THE GREAT SOUTHERN.

The attractions at the Great South-

ern Theatre, Columbus, during the

week of October 1, include produc-

tions that by their success during all

last season leave no room for doubt

as to the merit. On Tuesday and

Wednesday, October 3 and 4, George

Ade's scintillating musical comedy,

"The Sho-Gun," will be presented.

George Ade's satire never fails to

touch the sense of humor. The crisp

comment embodied in each line on

things American is delightful.

A return to comedy is made Thurs-

day, October 5, when "The Education

of Mr. Pipp" will be given. This is a

stage realization made by Augustus

Thomas, of the inimitable drawings of

Charles Dana Gibson, that appears

in "Life," under the same title. All

the humor, as well as delicate emo-

tion, infused by this great pen trans-

ferred to the stage with the utmost

fidelity.

MENTOR

AND

MUNSING

Abrupt and unexpected changes in the weather are now due—a
freezing night is very apt to follow an Indian Summer day.At such a season of the year it is vitally important that the
body be given proper protection—especially is this true in the mat-
ter of underwear.Heavy outside clothing is of practically no avail, if the clothing
next to the skin—if the underwear—is not of the proper kind.The rules of health demand at this season of the year that the
skin, in addition to being thoroughly protected, should also be al-
lowed to breathe freely, thus keeping the body-heat at a uniform
temperature.

To combine these two most

important features, an under-

wear must be selected which

is made of a material at once

warm and absorbant.

CHURCH ROBBED OF ALL PROPERTY

REV. B. M. O'BOYLAN PRESENTS
TO NEWARK PEOPLE CONDI-
TIONS IN FRANCE.

Relative To the Trouble Between the
Church and the State—France Is
Despoiled By Government.

Editor Newark Daily Advocate:

Dear Sir:—In the course of a conversation with one of my non-Catholic neighbors this morning the separation of the church from the state in France was discussed. He was surprised to hear that it was different from what obtains here; and when I told him only some of the outrages perpetrated by the infidel government of France he requested me to publish some of those facts and let the people know them. According to his request, I shall state only a few:

1st. The government has despoiled the church of all its real and moveable property. It has taken over to its control the vast treasures in gold and silver consecrated to the service of the altar. Think of the priceless chalices, ostensoria, ciboria, candelabra, crosses and crucifixes, reliquaries vestments and other sacred furniture that the labor and generosity of sixteen centuries of Catholicity had accumulated.

2. It has robbed the church of all its real estate, together with the magnificent buildings erected thereon, some of the buildings costing more than the capitol at Washington. Think of the great universities, cathedrals, churches, shrines, monasteries, colleges, academies, &c.—all built by the money of Catholics. Think of it, that this French Republic which we hear people call the "sister of our country", has openly and by what they call law, robbed the Catholics of France of all these monumental treasures and then say if such a thing could be possible without causing revolution and bloodshed.

3d. The Catholic bishops and priests are not allowed to criticize the government for these outrages. If they do they are called the enemies of the Republic and are liable to fine and imprisonment.

There are Catholics even here who say they deserve to be fined and imprisoned for criticizing such a government. How would we feel, whether Protestant or Catholic, if WE were not allowed to criticize such a tyrant and despot?

But you may ask the cause I answer briefly: The Catholic hierarchy did not go into politics in time. They should have commenced under the Monarchy and they should have at least at the time of the Concordant come out openly for a separation of church and state like that which O'Connell got for Ireland, and under which this republic of ours enjoys such freedom. The forces that have brought about this state of slavery to the church of France are the infidels, Jews, socialists, and disobedient Catholics who will join with any power that is against the "hated church of Rome." The above are a few of the persecutions going on in France against the Catholic church. We have heard much of late years against Russia, much about the poor, persecuted Jews, and so on, but while the press fired our souls to almost fighting heat against Russia, it has done nothing more than throw cold water on the more infamous conduct of France. Russia has at least been no robber. It has not made laws to legalize injustice and confiscation of every kind. It has not driven to poverty and exile thousands of the purest and noblest women, as France has done when it threw open the doors of the convents and hospitals and by force flung out on the streets the "Sisters of Mercy" and "Charity." Ask yourselves, Americans, who read this, what would we say and do if we beheld any such acts of cruelty, outrage and open robbery in any city in this fair land?

Yet what is written here is but a hurried and faint echo of the complaints and appeals of the persecuted and trampled people of France who have not abandoned their loyalty to their God and their conscience for loyalty to an infidel government.

CAUSTIC

Is Comment of President Butler of
Columbia College, on Modern
Business Methods.

New York, Sept. 28.—Caustic comment on some modern business methods was made by President Nicholas Murray Butler in his address of welcome to the students at the opening of the college year at Columbia university. "If we fail in forming those traits and habits which together constitute character," he said, "all our learning is an evil. Just now the American people are receiving some painful lessons in practical ethics. We have been watching reputations melt away like snow before the sun; and the sun in this case is mere publicity. Men who for years have been trusted implicitly by their fellows, and so placed in positions of honor and grave responsibility, are seen to be mere reckless speculators with the money of others and petty pilferers of the savings of the poor and needy. Put bluntly, the situation which confronts Americans today is due to lack of moral principle."

MAYOR JEFFREYS VETOES ORDINANCE

Says C. B. L. & N. Traction Co.,
Gave No Satisfactory Guarantee
Regarding Transfers On Loop.

Columbus, O., Sept. 28.—Mayor Jeffrey last night vetoed an ordinance passed by council which permitted the Columbus, Buckeye Lake & Newark Traction Co., to run its cars into the city, without passing over the interurban loop which encircles the business section of the city.

The mayor gave as his reason that the Columbus, Buckeye Lake & Newark Traction Co., gave no satisfactory guarantee in reference to the transfers good around the loop, which the Columbus people were fighting. In closing he said that he had been induced by all manner of means to veto the ordinance and that he felt that it was his duty to the people of Columbus to veto it.

ANNUAL REUNION 31ST REGIMENT

OVER EIGHTY OF THE OLD VET-
ERANS RESPONDED TO THE
ROLL CALL.

Several Members From Newark At-
tended Meeting Held In Roseville,
Ohio, on Tuesday.

The annual reunion of the Thirty-first regiment O. V. I., of which a large number of Licking county men were members, was held at Roseville, Muskingum county, on Tuesday. There was a good attendance of the members of the old regiment, over eighty of the old veterans responding to roll call. Among those from Newark who were members of Company H, of this regiment, and who were in attendance at the reunion with their wives, were Comrades James Tinner, Dr. J. W. Alexander, Spencer Holtsberry and George Wilson of Company C. The day was spent in renewing old friendships, and in having a good time generally. At the camp fire on Tuesday night speeches were made by General Brown of Zanesville, and General Axline, Secretary of State.

In the morning the address of welcome was delivered by Mr. John Williams, a prominent attorney of Roseville, and the response was made by Comrade C. C. Marsh of Company H.

Among the members of Company H, of this city, who were unable to attend the reunion, were Captain John H. McCune, Anson Lee White, Charles Babbitt, David H. Barrick, Charles Manville and Squire James R. Atcherly.

During their stay in Roseville the old soldiers visited the potteries of that place, and every veteran was presented with a handsome glazed canteen with "Thirty-first O. V. I." burned into it.

The Thirty-first Ohio Volunteer Infantry was organized at Columbus, O., in August and September, 1861, to serve three years. On the expiration of its term of service the original members (except veterans), were mustered out, and the organization, composed of veterans and recruits, remained in service until July 20, 1865, when it was mustered out in accordance with orders from the war department.

The official list of battles in which this regiment bore an honorable part, is not yet published in orders of the war department, but the following list has been compiled, after careful research during the preparation of this work:

KNIGHTS TEMPLAR AT 63D CONCLAVE

ABOUT SIXTY MEMBERS OF THE
LOCAL COMMANDERY
WILL ATTEND.

Party Accompanied By Ladies and
Buckeye Band Will Leave on Trol-
ley Cars, Oct. 11, at 8 A. M.

St. Luke's Commandery, No. 34 Knights Templar, will attend the sixty-third annual convocation of the Grand Commandery, which will be held at Columbus, O., beginning Wednesday, October 11. Arrangements have been made with the Columbus, Buckeye Lake and Newark Traction company whereby the Commandery and their lady friends will make the trip to Columbus in special cars. The local commandery has been preparing for this event for some time, and will make a fine showing at the grand convocation. A good sized delegation from Newark will attend, with their ladies, and will leave this city on Wednesday morning, October 11, at 8 o'clock. It is expected that about sixty swords of St. Luke's Commandery will be in line during the parade, which will be held Wednesday afternoon.

One of the features of the parade will be the massing of the different bands, the Past Eminent Commanders, and the Sir Knights, the latter in 24 files solid front formation, which will present one of the most beautiful sights seen for some time during a lodge parade. While the marchers are in solid formation the bands will play "Onward Christian Soldiers."

As above stated the St. Luke's Commandery will leave on Wednesday morning at 8 o'clock, and will be accompanied by their ladies and the Buckeye Band, which will head the Newark Commandery in the parade. This is expected to be the largest convocation ever held by the grand commandery, as 56 of the 60 commanderies in the state will be present.

On Wednesday evening, October 11, a reception will be held in the Auditorium at Columbus, to which all Sir Knights and their ladies are invited. The parade on Wednesday afternoon will be one of the finest spectacles ever seen in Ohio.

DISHEARTENED SHE TAKES POISON

ZANESVILLE WOMAN TRIES TO
KILL HERSELF WITH
LAUDANUM.

Husband Had Turned His Affections
To Another Woman, It Is Alleged
—She Will Recover.

Zanesville, O., Sept. 28.—Disheartened because her husband has turned his affections from her to another woman, as is alleged, Mrs. Minnie Maxwell, who only a few weeks ago fired a shot into the leg of Mrs. Nellie Brown, her husband's lover, while at Squire Miller's fish camp on the lower Muskingum river, drank an ounce of laudanum in her room at the Arlington hotel last night in an attempt to commit suicide. The woman will recover.

From those most intimate with Mr. and Mrs. Maxwell, it is said, the couple quarreled Tuesday night. It is thought the wife either attempted to draw sympathy from her parted husband, or else to leave him with their little 8-year-old girl to support himself. The woman is of Southern birth, Maxwell having been wedded to her in the Southland. She is pretty, attractive and with the passionate love of the Southern girl.

It has been some time since the couple parted. Mrs. Maxwell has been employed as chambermaid at the Arlington hotel, where she has worked to support her little daughter. The husband is a bartender in a Main street saloon.

One of the other women employees of the hotel saw Mrs. Maxwell purchase the ounce of laudanum yesterday afternoon. She followed the temporarily demented wife from the drug store back to the hotel. Here Mrs. Maxwell drank the whole contents of the ounce bottle of laudanum.

Dr. D. J. Evans was summoned, arriving within 10 minutes after the poison had been swallowed. Strong emetics were used with immediate success, after which strychnine was given to counteract the laudanum.

After the shooting affray at Squire Miller's fish camp the sweetheart of Maxwell was made to leave the city. Since that time life seemed peaceful for Mr. and Mrs. Maxwell, until their quarrel.
